Elab Fluor® Violet 450 Anti-Human CD2 Antibody[RPA-2.10]

Catalog No. E-AB-F1375Q Reactivity Human Storage Store at 2~8°C, Avoid freeze / thaw cycles **Applications FCM**

Important Note: Centrifuge before opening to ensure complete recovery of vial contents.

Antigen Information

Alternate Names T-cell surface antigen CD2, Erythrocyte receptor, LFA-2, LFA-3R, T11/Leu-5

Uniprot ID P06729 Gene ID 914

Background CD2 is a 50 kD type I transmembrane glycoprotein also known as LFA-2, T11, and sheep red

> blood cell receptor (SRBC-R). This immunoglobulin superfamily member is expressed on thymocytes, T lymphocytes, NK cells, and thymic B cell subsets. The major ligand for CD2 is CD58 (also known as LFA-3). CD2 has also been reported to bind CD48, CD59, and CD15. CD2

plays a critical role in alternative T cell activation, T cell signaling, and cell-cell adhesion.

Product Details

Form Liquid

20Tests/100Tests/100Tests×2 Size

Clone No. RPA-2.10 Mouse Host

Isotype Mouse IgG1, κ

Human Reactivity **FCM Application**

Elab Fluor[®] Violet 450 Mouse IgG1, κ Isotype Control[MOPC-21] [Product E-AB-F09792Q] **Isotype Control** Phosphate buffered solution, pH 7.2, containing 0.09% stabilizer and 1% protein protectant. **Storage Buffer**

Biological ice pack at 4 °C **Shipping** Stability & Storage Keep as concentrated solution.

Store at 2~8°C and protected from prolonged exposure to light.Do not freeze.

This product is guaranteed up to one year from purchase.

Fluorophore

Conjugation: Elab Fluor® Violet 450

Elab Fluor® Violet 450 is designed to be excited by the violet laser (405 nm) and detected using an optical filter centered near 450 nm (e.g., a 450/45 nm bandpass filter).

Recommended usage

Each lot of this antibody is quality control tested by flow cytometric analysis. The amount of the reagent is suggested to be used 5 μL of antibody per test (million cells in 100 μL staining volume or per 100 μL of whole blood). Please check your vial before the experiment. Since applications vary, the appropriate dilutions must be determined for individual use.
