## Recombinant Human ASB13 Protein (His Tag)

Catalog Number:PKSH032070

Note: Centrifuge before opening to ensure complete recovery of vial contents.

| Description                 |                                                                                                                                                            |
|-----------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Synonyms                    | Ankyrin repeat and SOCS box protein 13;ASB13;                                                                                                              |
| Species                     | Human                                                                                                                                                      |
| Expression Host             | E.coli                                                                                                                                                     |
| Sequence                    | Met 1-Asn278                                                                                                                                               |
| Accession                   | Q8WXK3                                                                                                                                                     |
| Calculated Molecular Weight | 31.4 kDa                                                                                                                                                   |
| Observed molecular weight   | 28 kDa                                                                                                                                                     |
| Tag                         | N-His                                                                                                                                                      |
| Properties                  |                                                                                                                                                            |
| Purity                      | > 90 % as determined by reducing SDS-PAGE.                                                                                                                 |
| Endotoxin                   | < 1.0 EU per µg of the protein as determined by the LAL method.                                                                                            |
| Storage                     | Store at $< -20^{\circ}$ C, stable for 6 months. Please minimize freeze-thaw cycles.                                                                       |
| Shipping                    | This product is provided as liquid. It is shipped at frozen temperature with blue ice/gel packs. Upon receipt, store it immediately at < - $20^{\circ}$ C. |
| Formulation                 | Supplied as a 0.2 µm filtered solution of PBS, 4M Urea, pH 7.4.                                                                                            |
| Reconstitution              | Not Applicable                                                                                                                                             |
| Data                        |                                                                                                                                                            |

> 90 % as determined by reducing SDS-PAGE.

## Background

Ankyrin repeat and SOCS box protein 13(ASB13) is a member of the ankyrin repeat and SOCS box-containing (ASB) family. ASB13 contain six ankyrin repeats sequence and a SOCS box domain. The SOCS box serves to couple suppressor of cytokine signalling (SOCS) proteins and their binding partners with the elongin B and C complex, possibly targeting them for degradation. ASB13 may be a substrate-recognition component of a SCF-like ECS (Elongin-Cullin-SOCS-box protein) E3 ubiquitin-protein ligase complex which mediates the ubiquitination and subsequent proteasomal degradation of target proteins.
