# Recombinant Human Inhibin β C Chain/INHBC Protein (aa 19-352, His Tag)

Catalog No. PKSH032586

Note: Centrifuge before opening to ensure complete recovery of vial contents.

### **Description**

Synonyms Inhibin Beta C Chain; Activin Beta-C Chain; INHBC

Species Human

Expression HostHEK293 CellsSequenceThr19-Ser352

**Accession** P55103 **Calculated Molecular Weight** 37.5 kDa

**Observed molecular weight** 42-58&32-40&14-17 kDa

Tag C-His

**Bioactivity** Not validated for activity

### **Properties**

**Purity** > 95 % as determined by reducing SDS-PAGE.

Endotoxin < 1.0 EU per ug of the protein as determined by the LAL method.

**Storage** Generally, lyophilized proteins are stable for up to 12 months when stored at -20 to

-80°C. Reconstituted protein solution can be stored at 4-8°C for 2-7 days. Aliquots

of reconstituted samples are stable at < -20°C for 3 months.

**Shipping** This product is provided as lyophilized powder which is shipped with ice packs.

**Formulation** Lyophilized from a 0.2 µm filtered solution of PBS, pH 7.4.

Normally 5 % - 8 % trehalose, mannitol and 0.01% Tween80 are added as

protectants before lyophilization.

Please refer to the specific buffer information in the printed manual.

**Reconstitution** Please refer to the printed manual for detailed information.

#### Data

> 95 % as determined by reducing SDS-PAGE.

## **Background**

Inhibin beta C chain; also known as activin beta-C chain and INHBC; belongs to the TGF-beta family. INHBC forms a homodimeric or heterodimeric through association with alpha and beta subunits; linked by one or more disulfide bonds.

A Reliable Research Partner in Life Science and Medicine

Inhibins are heterodimers of one alpha and one beta subunit. Activins are homo- or heterodimers of beta subunits only. Inhibins/activins regulates many physiological processes; such as hypothalamic and pituitary hormone secretion; gonadal hormone secretion; germ cell development and maturation; erythroid differentiation; insulin secretion; nerve cell survival; embryonic axial development or bone growth and so on.
