A Reliable Research Partner in Life Science and Medicine

Recombinant Human γ-Synuclein/SNCG Protein

Catalog No. PKSH033274

Note: Centrifuge before opening to ensure complete recovery of vial contents.

Description

Synonyms Gamma-Synuclein;Breast Cancer-Specific Gene 1

Protein;Persyn;Synoretin;SR;SNCG;BCSG1;PERSYN;PRSN

SpeciesHumanExpression HostE.coli

Sequence Met 1-Asp127

Accession O76070

Calculated Molecular Weight 13.6 kDa

Observed molecular weight 16-18 kDa

Tag None

Bioactivity Not validated for activity

Properties

Purity > 95 % as determined by reducing SDS-PAGE.

Endotoxin < 1.0 EU per μg of the protein as determined by the LAL method.

Storage Generally, lyophilized proteins are stable for up to 12 months when stored at -20 to

-80°C. Reconstituted protein solution can be stored at 4-8°C for 2-7 days. Aliquots

of reconstituted samples are stable at < -20°C for 3 months.

Shipping This product is provided as lyophilized powder which is shipped with ice packs.

Formulation Lyophilized from a 0.2 µm filtered solution of PBS, pH 7.4.

Normally 5 % - 8 % trehalose, mannitol and 0.01% Tween80 are added as

protectants before lyophilization.

Please refer to the specific buffer information in the printed manual.

Reconstitution Please refer to the printed manual for detailed information.

Data

> 95 % as determined by reducing SDS-PAGE.

Background

Gamma-Synuclein (SNCG) is a member of the Synuclein protein family. Gamma-Synuclein is mostly expressed in the

peripheral nervous system and retina. Gamma-Synuclein plays a role in neurofilament network integrity and may be involved in modulating axonal architecture during development and in the adult. In addition, it may also function in modulating the keratin network in skin. SNCG expression in breast tumors has been as a marker for tumor progression. SNCG is also believed to be involved in the pathogenesis of neurodegenerative diseases.
