# **Recombinant Human LDLR Protein (His Tag)**

Catalog No. PKSH033435

Note: Centrifuge before opening to ensure complete recovery of vial contents.

### **Description**

**Synonyms** Low-Density Lipoprotein Receptor; LDL Receptor; LDLR; FH; FHC; LDL R; LDL

Receptor;LDLCQ2

**Species** Human

**Expression Host** HEK293 Cells **Sequence** Ala22-Arg788 P01130 Accession

Calculated Molecular Weight 86.56 kDa Observed molecular weight 99-135 kDa Tag C-His

**Bioactivity** Not validated for activity

## **Properties**

**Purity** > 95 % as determined by reducing SDS-PAGE.

**Endotoxin** < 1.0 EU per µg of the protein as determined by the LAL method.

Generally, lyophilized proteins are stable for up to 12 months when stored at -20 to **Storage** 

-80°C. Reconstituted protein solution can be stored at 4-8°C for 2-7 days. Aliquots

of reconstituted samples are stable at < -20°C for 3 months.

Shipping This product is provided as lyophilized powder which is shipped with ice packs.

**Formulation** Lyophilized from a 0.2 µm filtered solution of 20mM HEPES, 150mM NaCl, pH

7.4.

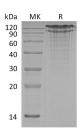

Normally 5% - 8% trehalose, mannitol and 0.01% Tween 80 are added as

protectants before lyophilization.

Please refer to the specific buffer information in the printed manual.

Reconstitution Please refer to the printed manual for detailed information.

# Data

> 95 % as determined by reducing SDS-PAGE.

Low-Density Lipoprotein Receptor (LDLR) is a transmembrane glycoprotein that plays a critical role in cholesterol homeostasis. LDLR mediates blood cholesterol level by interacting with lipoprotein particles like LDL and VLDL. The extracellular domain of LDLR contains LDL receptor type A (ligand-binding) modules (LA repeats), epidermal growth factor-like modules, and LY repeats containing the YWTD consensus motif that are important in binding and releasing of ApoB-100 and ApoE in lipoprotein particles. The C terminal domain of LDLR inside the cell is required for the receptor internalization. Loss of function mutations in the LDLR gene causes Familial Hypercholesterolemia (FH).
