# Elab Fluor® 647 Anti-Mouse F4/80 Antibody[CI:A3-1]

Catalog No. E-AB-F0995M Reactivity Mouse Storage Store at 2~8°C, Avoid freeze / thaw cycles **Applications FCM** 

**Important Note:** Centrifuge before opening to ensure complete recovery of vial contents.

## **Antigen Information**

**Alternate Names** Adhesion G protein-coupled receptor E1, Adgre1, Cell surface glycoprotein F4/80, EGF-like

module receptor 1,Adgre1,Emr1, Gpf480

**Uniprot ID** 061549

**Background** F4/80 is a 160 kD glycoprotein. It is characterized as a member of the epidermal growth factor

> (EGF)-transmembrane 7 (TM7) family. F4/80, also known as EMR1 or Ly71, has been widely used as a murine macrophage marker, which is expressed on the majority of tissue macrophages including peritoneal macrophages, macrophages in lung, gut, thymus and red pulp of spleen (but not on the macrophages located in T cell areas of the spleen, lymph node and Peyer's patch), Kuffer cells, Langerhans cells, and bone marrow stromal cells. F4/80 has also been shown on a subset of dendritic cells. The biological ligand of F4/80 has not been identified, but it has been reported that F4/80 is required for induction of CD8+ T cells-mediated peripheral tolerance.

#### **Product Details**

Form Liquid

50Tests/100Tests/100Tests×2 Size

Clone No. CI:A3-1 Host Rat

Isotype Rat IgG2b, κ Reactivity Mouse **Application FCM** 

Elab Fluor<sup>®</sup> 647 Rat IgG2b, κ Isotype Control[LTF-2] [Product E-AB-F09842M] **Isotype Control** 

**Storage Buffer** Phosphate buffered solution, pH 7.2, containing 0.09% stabilizer and 1% protein protectant.

Shipping Biological ice pack at 4 °C Stability & Storage Keep as concentrated solution.

Store at 2~8°C and protected from prolonged exposure to light.Do not freeze.

This product is guaranteed up to one year from purchase.

# **Fluorophore**

Conjugation: Elab Fluor® 647

Elab Fluor $^{\odot}$  647 is designed to be excited by the Red laser (627-640 nm) and detected using an optical filter centered near 670 nm (e.g., a 660/20 nm bandpass filter).

## **Recommended usage**

Each lot of this antibody is quality control tested by flow cytometric analysis. The amount of the reagent is suggested to be used 5  $\mu$ L of antibody per test (million cells in 100  $\mu$ L staining volume or per 100  $\mu$ L of whole blood). Please check your vial before the experiment. Since applications vary, the appropriate dilutions must be determined for individual use.

### **Product data**

Mouse abdominal macrophages elicited by starch broth are stained with Elab Fluor<sup>®</sup> 647 Anti-Mouse F4/80 Antibody (filled gray curve). Unstained macrophages (blank black curve) are used as control.
