## FITC Anti-Human CD48 Antibody[156-4H9]

Catalog No.E-AB-F1061CReactivityHumanStorageStore at 2~8°C, Avoid freeze / thaw cyclesApplicationsFCM

**Important Note:** Centrifuge before opening to ensure complete recovery of vial contents.

### **Antigen Information**

Alternate Names CD48 antigen, Cd48, BCM1 surface antigen, BLAST-1, HM48-1, MRC OX-45 surface

antigen, SLAMF2, sgp-60, CD48

Uniprot ID P09326

**Background** CD48 is a 40-47 kD GPI-anchored membrane protein, also known as Blast-1 and HuLy-m3. It is

a member of the CD2 family that contains 2 IgSF domains and is widely expressed on both resting and activated hematopoietic cells with the exception of granulocytes, platelets, and erythrocytes. CD48 binds to CD2 at a considerably (>100-fold) lower affinity than CD58. It is thought to contribute to T cell activation. The cytoplasmic tail of CD48 has been shown to bind to

the kinases Lck and Fyn.

#### **Product Details**

Form Liquid

Size 20Tests/100Tests/100Tests×2

Clone No. 156-4H9

Host Mouse

Isotype Mouse IgG1, κ

**Reactivity** Human **Application** FCM

**Isotype Control** FITC Mouse IgG1, κ Isotype Control[MOPC-21] [Product E-AB-F09792C]

**Storage Buffer** Phosphate buffered solution, pH 7.2, containing 0.09% stabilizer and 1% protein protectant.

**Shipping** Biological ice pack at 4 °C **Stability & Storage** Keep as concentrated solution.

Store at 2~8°C and protected from prolonged exposure to light.Do not freeze.

This product is guaranteed up to one year from purchase.

# **Fluorophore**

Conjugation: FITC

FITC is designed to be excited by the Blue laser (488 nm) and detected using an optical filter centered near 530 nm (e.g., a 525/40 nm bandpass filter).

## **Recommended usage**

Each lot of this antibody is quality control tested by flow cytometric analysis. The amount of the reagent is suggested to be used 5  $\mu$ L of antibody per test (million cells in 100  $\mu$ L staining volume or per 100  $\mu$ L of whole blood). Please check your vial before the experiment. Since applications vary, the appropriate dilutions must be determined for individual use.

#### **Product data**

Human peripheral blood lymphocytes are stained with FITC Anti-Human CD48 Antibody (filled gray histogram).

Unstained lymphocytes (empty black histogram) are used as control.
