## Elab Fluor<sup>®</sup> 647 Anti-Mouse CD31 Antibody[390]

Catalog No.E-AB-F1180MStorageStore at 2~8°C, Avoid freeze / thaw cycles

ReactivityMouseApplicationsFCM

**Important Note:** Centrifuge before opening to ensure complete recovery of vial contents.

#### **Antigen Information**

| Alternate Names | Pecam, Pecam-1, PECAM-1, CD31  |
|-----------------|--|
| Uniprot ID      | Q08481   |
| Background      | CD31 is a 130-140 kD glycoprotein, also known as platelet endothelial cell adhesion molecule                 |
|                 | (PECAM-1) and EndoCAM. It is a member of the Ig superfamily, expressed on endothelial cells,                 |
|                 | platelets, granulocytes, monocytes/macrophages, dendritic cells, and T and B cell subsets, and is            |
|                 | critical for cell-cell interactions. The primary ligands for CD31 have been reported to be CD38              |
|                 | and the vitronectin receptor ( $\alpha v \beta 3$ integrin, CD51/CD61). Other reported functions of CD31 are |
|                 | neutrophil emigration to sites of inflammation and angiogenesis.   |

#### **Product Details**

| Form                | Liquid  |
|---------------------|---|
| Size                | 50Tests/100Tests/100Tests×2   |
| Clone No.           | 390   |
| Host                | Rat   |
| Isotype             | Rat IgG2a, κ  |
| Reactivity          | Mouse   |
| Application         | FCM   |
| Isotype Control     | <u>Elab Fluor<sup>®</sup> 647 Rat IgG2a, κ Isotype Control[2A3] [Product E-AB-F09832M]</u>  |
| Storage Buffer      | Phosphate buffered solution, pH 7.2, containing 0.09% stabilizer and 1% protein protectant. |
| Shipping            | Biological ice pack at 4 °C   |
| Stability & Storage | Keep as concentrated solution.  |
| -                   | Store at 2~8°C and protected from prolonged exposure to light.Do not freeze.                |
|                     | This product is guaranteed up to one year from purchase.                                    |

For Research Use Only

# **Elabscience**®

### Fluorophore

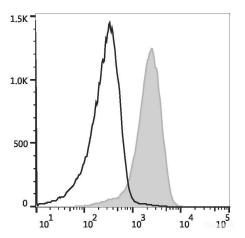

#### **Conjugation:** Elab Fluor<sup>®</sup> 647

Elab Fluor<sup>®</sup> 647 is designed to be excited by the Red laser (627-640 nm) and detected using an optical filter centered near 670 nm (e.g., a 660/20 nm bandpass filter).

#### **Recommended usage**

Each lot of this antibody is quality control tested by flow cytometric analysis. The amount of the reagent is suggested to be used 5  $\mu$ L of antibody per test (million cells in 100  $\mu$ L staining volume or per 100  $\mu$ L of whole blood). Please check your vial before the experiment. Since applications vary, the appropriate dilutions must be determined for individual use.

### **Product data**

C57BL/6 murine splenocytes are stained with Elab Fluor<sup>®</sup> 647 Anti-Mouse CD31 Antibody (filled gray histogram) or Elab Fluor<sup>®</sup> 647 Rat IgG2a, κ Isotype Control (empty black histogram).
