Recombinant Human Interleukin-2/IL-2 Protein (C145S)

Catalog No. PKSH033623

Note: Centrifuge before opening to ensure complete recovery of vial contents.

Description

Synonyms Interleukin-2;IL-2;T-Cell Growth Factor;TCGF;Aldesleukin;IL6

Species Human
Expression Host E.coli

Sequence Pro22-Thr153(Cys145Ser)

AccessionP60568Calculated Molecular Weight15.5 kDaObserved molecular weight14 kDaTagNone

Bioactivity Measured in a cell proliferation assay using CTLL-2 mouse cytotoxic T cells. The

ED50 for this effect is 90-270 pg/ml

Properties

Purity > 95 % as determined by reducing SDS-PAGE.

Endotoxin < 1.0 EU per μg of the protein as determined by the LAL method.

Storage Generally, lyophilized proteins are stable for up to 12 months when stored at -20 to

-80°C. Reconstituted protein solution can be stored at 4-8°C for 2-7 days. Aliquots

of reconstituted samples are stable at < -20°C for 3 months.

Shipping This product is provided as lyophilized powder which is shipped with ice packs.

Formulation Lyophilized from a 0.2 µm filtered solution of 10mM Acetata-Na, 5% Trehaiose,

pH 4.5.

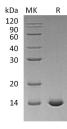

Normally 5% - 8% trehalose, mannitol and 0.01% Tween 80 are added as

protectants before lyophilization.

Please refer to the specific buffer information in the printed manual.

Reconstitution Please refer to the printed manual for detailed information.

Data

> 95 % as determined by reducing SDS-PAGE.

Interleukin-2(IL-2) is an interleukin; a type of cytokine signaling molecule in the immune system; belongs to the IL-2 family. It is a powerful immunoregulatory lymphokine produced by T-cells in response to antigenic or mitogenic stimulation. IL-2/IL-2R signaling is required for T-cell proliferation and other fundamental functions that are essential for the immune response. IL-2 stimulates growth and differentiation of B-cells; NK cells; lymphokine-activated killer cells; monocytes; macrophages and oligodendrocytes.
