

Recombinant Human GITR/TNFRSF18 Protein (mFc Tag)

Catalog Number:PKSH033668

Note: Centrifuge before opening to ensure complete recovery of vial contents.

Description

Synonyms	Tumor necrosis factor receptor superfamily member 18;TNFRSF18;Glucocorticoid-induced TNFR-related protein;CD357;TNFRSF18;AITR;GITR
Species	Human
Expression Host	HEK293 Cells
Sequence	Gln26-Glu161(Thr45Ala)
Accession	Q9Y5U5
Calculated Molecular Weight	41.1 kDa
Observed molecular weight	40-55 kDa
Tag	C-mFc

Properties

Purity	> 90 % as determined by reducing SDS-PAGE.
Endotoxin	< 1.0 EU per µg of the protein as determined by the LAL method.
Storage	Generally, lyophilized proteins are stable for up to 12 months when stored at -20 to -80°C. Reconstituted protein solution can be stored at 4-8°C for 2-7 days. Aliquots of reconstituted samples are stable at < -20°C for 3 months.
Shipping	This product is provided as lyophilized powder which is shipped with ice packs.
Formulation	Lyophilized from a 0.2 µm filtered solution of PBS, pH 7.4. Normally 5 % - 8 % trehalose, mannitol and 0.01% Tween80 are added as protectants before lyophilization. Please refer to the specific buffer information in the printed manual.
Reconstitution	Please refer to the printed manual for detailed information.

Data

> 90 % as determined by reducing SDS-PAGE.

Background

Tumor necrosis factor receptor superfamily member 18(Gitr) contains 3 TNFR-Cys repeats and it have four isforms.IsformA isformB and isformC is single-pass type I membrane protein and isformD is a secreted protein. The protein is the receptor for TNFSF18.It seems to be involved in interactions between activated T-lymphocytes and endothelial cells and in the regulation of T-cell receptor-mediated cell death. It mediated NF-kappa-B activation via the TRAF2/NIK pathway.It binds to TRAF1; TRAF2; and TRAF3; but not TRAF5 and TRAF6 and binds through its C-terminus to SIVA1/SIVA.It preferentially expressed in activated T lymphocytes and up-regulated in peripheral mononuclear cells after antigen stimulation/lymphocyte activation.
