

A Reliable Research Partner in Life Science and Medicine

# **Cleaved PARP1 Monoclonal Antibody**

Catalog No. E-AB-22074

*Note:* Centrifuge before opening to ensure complete recovery of vial contents.

### Description

**Reactivity** Human

Immunogen Synthetic Peptide

Host Mouse Isotype IgG

Clone:4A3

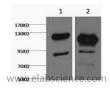

**Purification** Protein A purification

**Buffer** PBS with 0.02% sodium azide and 50% glycerol pH 7.4.

**Applications** Recommended Dilution

**WB** 1:1000-3000

#### Data

Western Blot analysis of 1) Jurkat, 2) Hela cells using Cleaved PARP1 Monoclonal Antibody at dilution of 1:2000.

Observed Mw:116,89kDa

## **Preparation & Storage**

Storage Store at -20°C. Avoid freeze / thaw cycles.

## **Background**

This gene encodes a chromatin-associated enzyme, poly(ADP-ribosyl)transferase, which modifies various nuclear proteins by poly(ADP-ribosyl)ation. The modification is dependent on DNA and is involved in the regulation of various important cellular processes such as differentiation, proliferation, and tumor transformation and also in the regulation of the molecular events involved in the recovery of cell from DNA damage. In addition, this enzyme may be the site of mutation in Fanconi anemia, and may participate in the pathophysiology of type I diabetes.
