

USP35 Polyclonal Antibody

Catalog No. E-AB-52449

Note: Centrifuge before opening to ensure complete recovery of vial contents.

Description

Reactivity	Human
Immunogen	Fusion protein of human USP35
Host	Rabbit
Isotype	IgG
Purification	Antigen affinity purification
Conjugation	Unconjugated
Buffer	PBS with 0.05% NaN ₃ and 40% Glycerol, pH7.4

Applications Recommended Dilution

IHC 1:40-1:200,
ELISA
1:5000-1:10000

Data

Immunohistochemistry of paraffin-embedded Human brain tissue using USP35 Polyclonal Antibody at dilution of 1:55(×200)

Preparation & Storage

Storage Store at -20°C. Avoid freeze / thaw cycles.

Background

USP35 (ubiquitin specific peptidase 35) is a 1,017 amino acid protein that belongs to the peptidase C19 family. Expressed in pancreas, testis and skeletal muscle, USP35 functions to catalyze the conversion of a ubiquitin C-terminal thioester and water to free ubiquitin and a thiol, a reaction that may play a role in signaling events throughout the cell.
