

A Reliable Research Partner in Life Science and Medicine

# **CBL Polyclonal Antibody**

Catalog No. E-AB-30782

Note: Centrifuge before opening to ensure complete recovery of vial contents.

## **Description**

**Reactivity** Human, Mouse, Rat

**Immunogen** Synthesized peptide derived from human Cbl around the non-phosphorylation site

of Tyr774.

**Host** Rabbit **Isotype** IgG

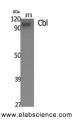

Purification Affinity purification
Conjugation Unconjugated

**Buffer** PBS with 0.02% sodium azide, 0.5% protective protein and 50% glycerol, pH7.4

# **Applications** Recommended Dilution

WB 1:500-1:2000
IHC 1:100-1:300
IF 1:200-1:1000
ELISA 1:5000

### Data

Western Blot analysis of 3T3 cells with Cbl Polyclonal

Antibody.

Observed Mw:100kDa Calculated Mw:100kDa

## **Preparation & Storage**

Storage Store at -20°C. Avoid freeze / thaw cycles.

### **Background**

This gene is a proto-oncogene that encodes a RING finger E3 ubiquitin ligase. The encoded protein is one of the enzymes required for targeting substrates for degradation by the proteasome. This protein mediates the transfer of ubiquitin from ubiquitin conjugating enzymes (E2) to specific substrates. This protein also contains an N-terminal phosphotyrosine binding domain that allows it to interact with numerous tyrosine-phosphorylated substrates and target them for proteasome degradation. As such it functions as a negative regulator of many signal transduction pathways. This gene has been found to be mutated or translocated in many cancers including acute myeloid leukaemia. Mutations in this gene are
