

A Reliable Research Partner in Life Science and Medicine

## **TLR8 Polyclonal Antibody**

Catalog No. E-AB-10873

*Note:* Centrifuge before opening to ensure complete recovery of vial contents.

### Description

**Reactivity** Human

Immunogen Recombinant protein of human TLR8

Host Rabbit
Isotype IgG

**Purification** Affinity purification

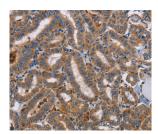

**Conjugation** Unconjugated

**Buffer** PBS with 0.05% sodium azide and 50% glycerol, PH7.4

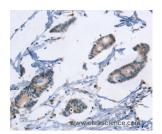

**Applications** Recommended Dilution

IHC 1:50-1:200

### Data

Immunohistochemistry of paraffin-embedded Human thyroid cancer tissue using TLR8 Polyclonal Antibody at dilution 1:40

Immunohistochemistry of paraffin-embedded Human colon cancer tissue using TLR8 Polyclonal Antibody at dilution 1:40

# Preparation & Storage

Storage Store at -20°C. Avoid freeze / thaw cycles.

### **Background**

The protein encoded by this gene is a member of the Toll-like receptor (TLR) family which plays a fundamental role in pathogen recognition and activation of innate immunity. TLRs are highly conserved from Drosophila to humans and share structural and functional similarities. They recognize pathogen-associated molecular patterns (PAMPs) that are expressed on infectious agents, and mediate the production of cytokines necessary for the development of effective immunity. The various TLRs exhibit different patterns of expression. This gene is predominantly expressed in lung and peripheral blood leukocytes, and lies in close proximity to another family member, TLR7, on chromosome X.
