

A Reliable Research Partner in Life Science and Medicine

ZWINT Polyclonal Antibody

Catalog No. E-AB-10889

Note: Centrifuge before opening to ensure complete recovery of vial contents.

Description

Reactivity Human

Immunogen Recombinant protein of human ZWINT

Host Rabbit **Isotype** IgG

Purification Affinity purification

Conjugation Unconjugated

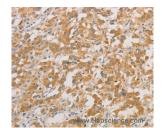

Applications Recommended Dilution

PBS with 0.05% sodium azide and 50% glycerol, PH7.4

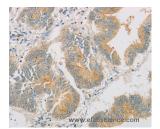

IHC 1:50-1:200

Data

Buffer

Immunohistochemistry of paraffin-embedded Human thyroid cancer tissue using ZWINT Polyclonal Antibody at dilution 1:50

Immunohistochemistry of paraffin-embedded Human colon cancer tissue using ZWINT Polyclonal Antibody at dilution 1:50

Preparation & Storage

Store at -20°C. Avoid freeze / thaw cycles. **Storage**

Background

This gene encodes a protein that is clearly involved in kinetochore function although an exact role is not known. It interacts with ZW10, another kinetochore protein, possibly regulating the association between ZW10 and kinetochores. The encoded protein localizes to prophase kinetochores before ZW10 does and it remains detectable on the kinetochore until late anaphase. It has a uniform distribution in the cytoplasm of interphase cells. Alternatively spliced transcript variants encoding different isoforms have been found for this gene.
