RBBP8 Polyclonal Antibody

Catalog Number: E-AB-11108

Note: Centrifuge before opening to ensure complete recovery of vial contents.

Description

Reactivity Human, Mouse, Rat

Immunogen Recombinant protein of human RBBP8

Host Rabbit
Isotype IgG

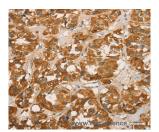

Purification Affinity purification
Conjugation Unconjugated

Formulation PBS with 0.05% sodium azide and 50% glycerol, PH7.4

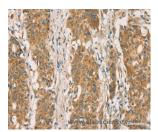

Applications Recommended Dilution

IHC 1:100-1:300

Data

Immunohistochemistry of paraffin-embedded Human thyroid cancer tissue using RBBP8 Polyclonal Antibody at dilution 1:65

Immunohistochemistry of paraffin-embedded Human gastric cancer tissue using RBBP8 Polyclonal Antibody at dilution 1:65

Preparation & Storage

Storage Store at -20°C. Avoid freeze / thaw cycles.

Background

The protein encoded by this gene is a ubiquitously expressed nuclear protein. It is found among several proteins that bind directly to retinoblastoma protein, which regulates cell proliferation. This protein complexes with transcriptional corepressor CTBP. It is also associated with BRCA1 and is thought to modulate the functions of BRCA1 in transcriptional regulation, DNA repair, and/or cell cycle checkpoint control. It is suggested that this gene may itself be a tumor suppressor acting in the same pathway as BRCA1. Three transcript variants encoding two different isoforms have been found for this gene. More transcript variants exist, but their full-length natures have not been determined.
