SYTL5 Polyclonal Antibody

Catalog Number: E-AB-11619

Note: Centrifuge before opening to ensure complete recovery of vial contents.

Description

Reactivity Human, Mouse, Rat

Immunogen Recombinant protein of human SYTL5

Host Rabbit
Isotype IgG

Purification Affinity purification
Conjugation Unconjugated

Formulation PBS with 0.05% sodium azide and 50% glycerol, PH7.4

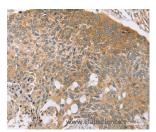

Applications Recommended Dilution

IHC 1:25-1:100

Data

Immunohistochemistry of paraffin-embedded Human brain tissue using SYTL5 Polyclonal Antibody at dilution 1:50

Immunohistochemistry of paraffin-embedded Human esophagus cancer tissue using SYTL5 Polyclonal Antibody at dilution 1:50

Preparation & Storage

Storage Store at -20°C. Avoid freeze / thaw cycles.

Background

The protein encoded by this gene belongs to the synaptotagmin-like (Slp) protein family, which contains a unique homology domain at the N-terminus, referred to as the Slp homology domain (SHD). The SHD functions as a binding site for Rab27A, which plays a role in protein transport. Expression of this gene is restricted to placenta and liver, suggesting that it might be involved in Rab27A-dependent membrane trafficking in specific tissues.
