# **PNN Polyclonal Antibody**

Catalog Number: E-AB-13517

Note: Centrifuge before opening to ensure complete recovery of vial contents.

### **Description**

**Reactivity** Human, Mouse

Immunogen Synthetic peptide of human PNN

Host Rabbit
Isotype IgG

**Purification** Affinity purification

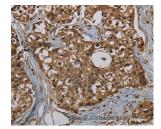

**Conjugation** Unconjugated

**Formulation** PBS with 0.05% sodium azide and 50% glycerol, PH7.4

**Applications** Recommended Dilution

IHC 1:50-1:200

### Data

Immunohistochemistry of paraffin-embedded Human breast cancer tissue using PNN Polyclonal Antibody at dilution 1:50

# Preparation & Storage

Storage Store at -20°C. Avoid freeze / thaw cycles.

## **Background**

Pinin is a desmosomal associated protein involved with the maintenance of cell to cell adhesion of the epithelium. Pinin is a widespread protein and has been shown to play an important role in cell adhesion through its interaction with nuclear complexes. Pinin is also involved in pre-mRNA splicing through its interactions with a C-terminal RS domain of Cyclophilin G, a Moca type nuclear cyclophilin. Pinin becomes nuclear during the early stages of embryonic development and remains so throughout the entire period. Defects or lack of Pinin can be lethal at perinatal stages and causes defects in the cardiac outflow tract, axial skeleton, palate and dorsal dermis.
