

A Reliable Research Partner in Life Science and Medicine

IGF2BP2 Polyclonal Antibody

Catalog No. E-AB-14147

Note: Centrifuge before opening to ensure complete recovery of vial contents.

Description

Reactivity Human, Mouse

Immunogen Recombinant protein of human IGF2BP2

Host Rabbit **Isotype** IgG

Purification Affinity purification

Conjugation Unconjugated

Buffer PBS with 0.05% sodium azide and 50% glycerol, PH7.4

Applications Recommended Dilution

WB 1:200-1:1000

Data

Western Blot analysis of Human liver and ovarian cancer tissue using IGF2BP2 Polyclonal Antibody at dilution of 1:300

Calculated Mw:66kDa

Preparation & Storage

Storage Store at -20°C. Avoid freeze / thaw cycles.

Background

This gene encodes a member of the IGF-II mRNA-binding protein (IMP) family. The protein encoded by this gene contains several four KH domains and two RRM domains. It functions by binding to the 5' UTR of the insulin-like growth factor 2 (IGF2) mRNA and regulating IGF2 translation. Alternate transcriptional splice variants, encoding different isoforms, have been characterized. May regulate translation of target mRNAs.
