BCL10 Polyclonal Antibody

Catalog No. E-AB-14787

Note: Centrifuge before opening to ensure complete recovery of vial contents.

Description

Reactivity Human, Mouse, Rat

Immunogen Recombinant protein of human BCL10

Host Rabbit Isotype IgG

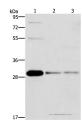

PurificationAffinity purificationConjugationUnconjugated

Buffer PBS with 0.05% sodium azide and 50% glycerol, PH7.4

Applications Recommended Dilution

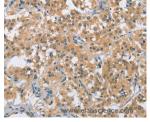

WB 1:500-1:2000 IHC 1:25-1:100

Data

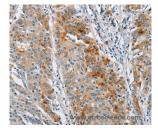

Western Blot analysis of HepG2, Raji and 293T cell using BCL10 Polyclonal Antibody at dilution of 1:950

Calculated Mw:26kDa

Immunohistochemistry of paraffin-embedded Human thyroid cancer using BCL10 Polyclonal Antibody at dilution of 1:40

Immunohistochemistry of paraffin-embedded Human gastric cancer using BCL10 Polyclonal Antibody at dilution of 1:40

Preparation & Storage

Storage Store at -20°C. Avoid freeze / thaw cycles.

Background

This gene was identified by its translocation in a case of mucosa-associated lymphoid tissue (MALT) lymphoma. The protein encoded by this gene contains a caspase recruitment domain (CARD), and has been shown to induce apoptosis and to activate NF-kappaB. This protein is reported to interact with other CARD domain containing proteins including CARD9, 10, 11 and 14, which are thought to function as upstream regulators in NF-kappaB signaling. This protein is found to form a complex with MALT1, a protein encoded by another gene known to be translocated in MALT lymphoma.
