

# BECN1 Monoclonal Antibody

Catalog Number:E-AB-22139

2 Publications

**Note:** Centrifuge before opening to ensure complete recovery of vial contents.

## Description

<b>Reactivity</b>	Human,Mouse,Rat
<b>Immunogen</b>	Synthetic Peptide of Beclin-1
<b>Host</b>	Mouse
<b>Isotype</b>	IgG
<b>Clone</b>	Clone:3C6
<b>Purification</b>	Protein A purification
<b>Conjugation</b>	Unconjugated
<b>Formulation</b>	PBS with 0.02% sodium azide, 0.5% protective protein and 50% glycerol, pH7.4

## Applications Recommended Dilution

<b>WB</b>	1:1000-2000
<b>IHC</b>	1:100-200

## Data

Western Blot analysis of 1) 293T, 2) C2C12, 3) Rat brain using BECN1 Monoclonal Antibody at dilution of 1:2000.

**Observed Mw:60kDa**

Immunohistochemistry of paraffin-embedded Human brain tissue using BECN1 Monoclonal Antibody at dilution of 1:200.

Immunohistochemistry of paraffin-embedded Human breast carcinoma tissue using BECN1 Monoclonal Antibody at dilution of 1:200.

## Preparation & Storage

**Storage** Store at -20°C. Avoid freeze / thaw cycles.

## Background

Beclin-1 (BECN1), also known as ATG6 or VPS30, has a central role in autophagy, a process of programmed cell

survival, which is increased during periods of cell stress and extinguished during the cell cycle. Beclin-1, may play a role in antiviral host defense. It protects against infection by a neurovirulent strain of Sindbis virus. Beclin-1 participates in the regulation of autophagy and has an important role in development, tumorigenesis, and neurodegeneration. A progressively reduced Beclin-1 expression is reported to correlate with the primary tumor growth of squamous cell carcinoma and adenocarcinoma of the lung. Caspase-mediated cleavage of Beclin 1 promotes crosstalk between apoptosis and autophagy.
