

p70 S6 kinase alpha Monoclonal Antibody

Catalog Number:E-AB-22198

Note: Centrifuge before opening to ensure complete recovery of vial contents.

Description

Reactivity	Human,Mouse,Rat
Immunogen	Recombinant Protein of P70 S6 Kinase of RPS6KB1
Host	Mouse
Isotype	IgG
Clone	Clone:1C7
Purification	Protein A purification
Formulation	PBS with 0.02% sodium azide, 0.5% protective protein and 50% glycerol, pH7.4

Applications Recommended Dilution

IHC	1:100-200
------------	-----------

Data

Immunohistochemistry of paraffin-embedded Human lung carcinoma tissue using p70 S6 kinase alpha Monoclonal Antibody at dilution of 1:200.

Immunohistochemistry of paraffin-embedded Human breast carcinoma tissue using p70 S6 kinase alpha Monoclonal Antibody at dilution of 1:200.

Preparation & Storage

Storage Store at -20°C. Avoid freeze / thaw cycles.

Background

P70 S6 Kinase alpha is a member of the RSK (ribosomal S6 kinase) family of serine/threonine kinases and contains 2 non-identical kinase catalytic domains. It phosphorylates several residues of the S6 ribosomal protein. The kinase activity of this protein is activated by serine/threonine phosphorylation and protein kinase C and inactivated by type 2A phosphatase. Activation leads to an increase in protein synthesis and cell proliferation. Overexpression of this kinase is involved in some breast cancer cell lines. Alternate translational start sites have been described and alternate transcriptional splice variants have been observed but have not been thoroughly characterized.
