# Elab Fluor® Violet 450 Anti-Mouse CD4 Antibody[GK1.5]

E-AB-F1097UQ Catalog No. Reactivity Mouse Storage Store at 2~8°C, Avoid freeze / thaw cycles **Applications FCM** 

**Important Note:** Centrifuge before opening to ensure complete recovery of vial contents.

## **Antigen Information**

**Alternate Names** T-cell surface glycoprotein CD4,CD4,T-cell surface antigen T4/Leu-3,CD4

**Uniprot ID** P06332 Gene ID 12504

**Background** CD4 is a 55 kD protein also known as L3T4 or T4. It is a member of the Ig superfamily,

> primarily expressed on most thymocytes, a subset of T cells, and weakly on macrophages and dendritic cells. It acts as a coreceptor with the TCR during T cell activation and thymic differentiation by binding MHC class II and associating with the protein tyrosin kinase, lck.

#### **Product Details**

**Form** Liquid Concentration 0.5 mg/mL $25 \mu g / 100 \mu g$ Size Clone No. **GK1.5** Rat Host

**Isotype** Rat IgG2b, κ Mouse Reactivity **FCM Application** 

 $\underline{Elab\ Fluor}^{\underline{@}\ Violet\ 450\ Rat\ IgG2b,\ \kappa\ Isotype\ Control[LTF-2]\ [Product\ E-AB-F09843Q]}$ **Isotype Control** Phosphate buffered solution, pH 7.2, containing 0.09% stabilizer and 1% protein protectant. **Storage Buffer** 

Biological ice pack at 4 °C Shipping Stability & Storage Keep as concentrated solution.

Store at 2~8°C and protected from prolonged exposure to light.Do not freeze.

This product is guaranteed up to one year from purchase.

## **Fluorophore**

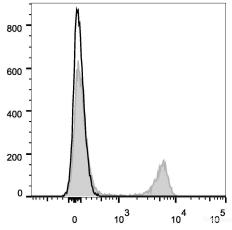

Conjugation: Elab Fluor® Violet 450

Elab Fluor<sup>®</sup> Violet 450 is designed to be excited by the violet laser (405 nm) and detected using an optical filter centered near 450 nm (e.g., a 450/45 nm bandpass filter).

## **Recommended usage**

Each lot of this antibody is quality control tested by flow cytometric analysis. Please check your vial before the experiment. Since applications vary, the appropriate dilutions must be determined for individual use. We suggest each investigator should titrate the reagent to obtain optimal results [The recommended concentration is  $0.1-1~\mu g/10^6$  cells in  $100~\mu L$  volume].

#### **Product data**

Mouse splenocytes are stained with Elab Fluor<sup>®</sup> Violet 450 Anti-Mouse CD4 Antibody (filled gray histogram). Unstained splenocytes (blank black histogram) are used as control.
