Recombinant Human CD47/IAP/OA3 (C-Avi-6His) Biotinylated

Catalog Number: PKSH033962

Note: Centrifuge before opening to ensure complete recovery of vial contents.

SpeciesHumanExpression HostHEK293 CellsSequenceGln 19-Pro139AccessionQ08722Calculated Molecular Weight16.4 kDaObserved molecular weight30-40 kDaTagC-Avi-HisPropertiesPurity> 95 % as determined by reducing SDS-PAGE.Endotoxin< 1.0 EU per µg of the protein as determined by the LAL method.	Synonyms	Leukocyte Surface Antigen CD47;Antigenic Surface Determinant Protein OA3;Integrin-Associated Protein;IAP;Protein MER6;CD47;MER6
SequenceGln19-Pro139AccessionQ08722Calculated Molecular Weight16.4 kDaObserved molecular weight30-40 kDaTagC-Avi-HisPropertiesPurity> 95 % as determined by reducing SDS-PAGE.Endotoxin< 1.0 EU per µg of the protein as determined by the LAL method.StorageGenerally, lyophilized proteins are stable for up to 12 months when stored at -20 the -80°C. Reconstituted protein solution can be stored at 4-8°C for 2-7 days. Aliquots of reconstituted samples are stable at < -20°C for 3 months.ShippingThis product is provided as lyophilized powder which is shipped with ice packs.FormulationLyophilized from a 0.2 µm filtered solution of 10mMTris-Citrate, 150mM NaCl, pH 8.0. Normally 5 % - 8 % trehalose, mannitol and 0.01% Tween80 are added as protectants before lyophilization. Please refer to the specific buffer information in the prReconstitutionPlease refer to the protein different formation.	Species	-

Background

CD47(Integrin-Associated Protein,IAP) is a 40 ? 60 kDa variably glycosylated atypical member of the immunoglobulin superfamily. The ubiquitously expressed CD47 binds to SIRP family members on macrophages, neutrophils, and T cells. CD47 is involved in the increase in intracellular calcium concentration that occurs upon cell adhesion to extracellular matrix. The protein is also a receptor for the C-terminal cell-binding domain of thrombospondin, and it may play a role in membrane transport and signal transduction. This protein has broad tissue distribution, and is reduced in expression on Rh erythrocytes.
