

MMP9 Polyclonal Antibody

Catalog Number:E-AB-70060

Note: Centrifuge before opening to ensure complete recovery of vial contents.

Description

Reactivity	Human
Immunogen	Recombinant protein corresponding to Rat MMP9
Host	Rabbit
Isotype	IgG
Purification	Affinity purification
Conjugation	Unconjugated
Formulation	PBS with 0.02% sodium azide, 1% protective protein and 50% glycerol, pH7.4

Applications Recommended Dilution

IHC	1:200-1:500
------------	-------------

Data

Immunohistochemistry analysis of paraffin-embedded human stomach cancer using MMP9 Polyclonal Antibody at dilution of 1:200.

Immunohistochemistry analysis of paraffin-embedded human kidney using MMP9 Polyclonal Antibody at dilution of 1:200.

Immunohistochemistry analysis of paraffin-embedded Human Spleen using MMP9 Polyclonal Antibody(Elabscience® Product Detected by Lifespan).

Preparation & Storage

Storage Store at -20°C. Avoid freeze / thaw cycles.

Background

Proteins of the matrix metalloproteinase (MMP) family are involved in the breakdown of extracellular matrix in normal physiological processes, such as embryonic development, reproduction, and tissue remodeling, as well as in disease processes, such as arthritis and metastasis. Most MMP's are secreted as inactive proproteins which are activated when cleaved by extracellular proteinases. The enzyme encoded by this gene degrades type IV and V collagens. Studies in

MMP9 Polyclonal Antibody

Catalog Number: E-AB-70060

rhesus monkeys suggest that the enzyme is involved in IL-8-induced mobilization of hematopoietic progenitor cells from bone marrow, and murine studies suggest a role in tumor-associated tissue remodeling.
