

SIRT1 Polyclonal Antibody

Catalog No. E-AB-70071

Note: Centrifuge before opening to ensure complete recovery of vial contents.

Description

Reactivity	Human,Mouse,Rat
Immunogen	KLH conjugated Synthetic peptide corresponding to Mouse SIRT1
Host	Rabbit
Isotype	IgG
Purification	Affinity purification
Conjugation	Unconjugated
Buffer	PBS with 0.02% sodium azide, 1% protective protein and 50% glycerol, pH7.4

Applications Recommended Dilution

IHC 1:200-1:800

Data

Immunohistochemistry analysis of paraffin-embedded human tonsil using SIRT1 Polyclonal Antibody at dilution of 1:500.

Immunohistochemistry analysis of paraffin-embedded mouse testis using SIRT1 Polyclonal Antibody at dilution of 1:500.

Immunohistochemistry analysis of paraffin-embedded Rat testis using SIRT1 Polyclonal Antibody at dilution of 1:300.

Preparation & Storage

Storage Store at -20°C. Avoid freeze / thaw cycles.

Background

SIRT1, also named as SIR2L1, contains a deacetylase sirtuin-type domain and belongs to the sirtuin family. It regulates

For Research Use Only

processes such as apoptosis and muscle differentiation by deacetylating key proteins. SIRT1 in particular initiates several signalling events relevant to cardioprotection, including: activation of endothelial nitric oxide synthase, insulin receptor signalling, and autophagy. In addition SIRT1 activation elicits resistance to oxidative stress via regulation of transcription factors and co-activators such as FOXO, Hif-2a, and NF-κB. SIRT1 regulates the p53-dependent DNA damage response pathway by binding to and deacetylating p53, specifically at Lysine 382.
