

MMP9 Monoclonal Antibody

Catalog Number:E-AB-70246

Note: Centrifuge before opening to ensure complete recovery of vial contents.

Description

Reactivity	Mouse,Rat
Immunogen	Recombinant protein corresponding to Mouse MMP9
Host	Mouse
Isotype	IgG
Clone	5C11C10
Purification	Affinity purification
Conjugation	Unconjugated
Formulation	PBS with 0.02% sodium azide, 1% protective protein and 50% glycerol, pH7.4

Applications Recommended Dilution

IHC	1:200-1:800
------------	-------------

Data

Immunohistochemistry analysis of paraffin-embedded mouse inflammatory lung using MMP9 Monoclonal Antibody at dilution of 1:400.

Immunohistochemistry analysis of paraffin-embedded mouse inflammatory liver using MMP9 Monoclonal Antibody at dilution of 1:400.

Immunohistochemistry analysis of paraffin-embedded rat kidney using MMP9 Monoclonal Antibody at dilution of 1:300.

Preparation & Storage

Storage	Store at -20°C. Avoid freeze / thaw cycles.
----------------	---

Background

Proteins of the matrix metalloproteinase (MMP) family are involved in the breakdown of extracellular matrix in normal physiological processes, such as embryonic development, reproduction, and tissue remodeling, as well as in disease processes, such as arthritis and metastasis. Most MMP's are secreted as inactive proproteins which are activated when cleaved by extracellular proteinases. The enzyme encoded by this gene degrades type IV and V collagens. Studies in

MMP9 Monoclonal Antibody

Catalog Number:E-AB-70246

rhesus monkeys suggest that the enzyme is involved in IL-8-induced mobilization of hematopoietic progenitor cells from bone marrow, and murine studies suggest a role in tumor-associated tissue remodeling.
