

Note: Centrifuge before opening to ensure complete recovery of vial contents.

Description

Reactivity	Mouse,Rat
Immunogen	KLH conjugated Synthetic peptide corresponding to Mouse Glucagon
Host	Rabbit
Isotype	IgG
Purification	Affinity purification
Conjugation	Unconjugated
Formulation	PBS with 0.02% sodium azide, 1% protective protein and 50% glycerol, pH7.4

Applications Recommended Dilution

IHC	1:500-1:1000
IF	1:200-1:500

Data

Immunohistochemistry analysis of paraffin-embedded mouse pancreas using GCG Polyclonal Antibody at dilution of 1:300.

Immunofluorescence analysis of paraffin-embedded Rat pancreas using GCG Polyclonal Antibody at dilution of 1:200.Red is labeled with glucagon antibody and green is labeled with insulin antibody.

Immunofluorescence analysis of paraffin-embedded Mouse pancreas using GCG Polyclonal Antibody at dilution of 1:200.Red is labeled with glucagon antibody and green is labeled with insulin antibody.

Preparation & Storage

Storage Store at -20°C. Avoid freeze / thaw cycles.

Background

The protein encoded by this gene is actually a preproprotein that is cleaved into four distinct mature peptides. One of these, glucagon, is a pancreatic hormone that counteracts the glucose-lowering action of insulin by stimulating

glycogenolysis and gluconeogenesis. Glucagon is a ligand for a specific G-protein linked receptor whose signalling pathway controls cell proliferation. Two of the other peptides are secreted from gut endocrine cells and promote nutrient absorption through distinct mechanisms. Finally, the fourth peptide is similar to glicentin, an active enteroglucagon.
