

HSP60 Monoclonal Antibody

Catalog No. E-AB-71067

Note: Centrifuge before opening to ensure complete recovery of vial contents.

Description

Reactivity	Human
Immunogen	Full length protein from eukaryotic expression system.
Host	Mouse
Isotype	IgG
Clone	LE9A1
Purification	Affinity purification
Conjugation	Unconjugated
Buffer	PBS with 0.02% sodium azide and 50% glycerol pH 7.4.

Applications Recommended Dilution

IHC 1:100-1:200

Data

Immunohistochemistry (Formalin/PFA-fixed paraffin-embedded sections) analysis of human colon cancer tissue using HSP60 Monoclonal Antibody with Cat#E-AB-71067 at dilution of 1:200.

Preparation & Storage

Storage Store at -20°C. Avoid freeze / thaw cycles.

Background

HSPs is a group of stress protein cells induced by stress stimulation, and it is related to tumorigenesis, proliferation and differentiation. HSPs can be classified into 3 types according to their different molecular weight, and the distribution and function of each type of HSPs are different. HSP60 is mainly used in research of tongue squamous cell carcinoma, colon cancer, pancreatic cancer and breast cancer, which may have prognostic significance.
