

Recombinant Galectin 3 Monoclonal Antibody

Catalog Number:E-AB-81559

Note: Centrifuge before opening to ensure complete recovery of vial contents.

Description

Reactivity	Human
Immunogen	Recombinant protein of human Galectin 3
Host	Rabbit
Isotype	IgG
Clone	R01-5E1
Purification	Affinity Purified
Conjugation	Unconjugated
Formulation	50mM Tris-Glycine(pH 7.4), 0.15M NaCl, 40% Glycerol, 0.01% Sodium azide and 0.05% protective protein

Applications

WB	1:500-1:1000
IHC	1:100-1:200
IF	1:50-1:100

Data

Western blot detection of Galectin 3 in Hela cell lysates using Galectin 3 Rabbit mAb(1:1000 diluted). Predicted band size:26kDa. Observed band size:28kDa.

Observed Mw:28kDa
Calculated Mw:26kDa

Immunohistochemistry of Galectin 3 in paraffin-embedded Human colon cancer tissue using Galectin 3 Rabbit mAb at dilution 1:100

Preparation & Storage

Storage Store at -20°C. Avoid freeze / thaw cycles.

Background

Galectins are a family of animal lectins defined by shared characteristic amino-acid sequences and affinity for β -galactose-containing oligosaccharides. Galectin-3 contains one carbohydrate recognition domain (CRD) and a proline- and glycine-rich N-terminal domain through which is able to form oligomers. Galectin-3 is widely expressed in many normal tissues and a variety of tumors. It is found intracellularly in nucleus and cytoplasm or secreted outside of cell, being present on the cell surface or in the extracellular space. Galectin-3 is involved in various biological processes including cell growth, adhesion, differentiation, apoptosis, angiogenesis, immune response, neoplastic transformation and metastasis.
